“Shimmy writes songs that appear simple, but say a lot. From the vocals to the guitar work...we’re just excited about this band.”

– *Ripsaw News, Duluth, MN*

**Starting Over** exhibits a wide range of gripping pop songs from the melancholy notes of “In The Summer” to the insistent, driving guitars and Hegg’s tough-minded vocals in the title track “Starting Over”. Shimmy is fast garnering a reputation for producing power pop songs with candid lyrics that reveal bittersweet intimacies.

“We wanted to take the time to try new arrangements and experiment, and we were able to do that on all these songs,” said Margaret Hegg, front woman for Shimmy. “For example, ‘In the Summer’ was a simple melody that became a more complex, dreamy piece. Working with Michael Whitney and Tom Herbers (**Low, The Fog, Jayhawks**) at Third Ear really helped shape the material and make the process fun,” Hegg said.

Shimmy has entertained music fans in the Twin Cities and greater Minnesota since early 2002 with authentic, power pop songs. Inspired by **Liz Phair, The Breeders, and Guided By Voices**, Shimmy creates smart, aggressive pop music. Shimmy consists of songwriter/guitarist/vocalist Margaret Hegg (formerly of Jessy Greene), lead guitarist Thomas Case (The Wonders, The Delilahs), bassist Randy Duerr, and most recently drummer Bill Dankert (The Gear Daddies).
